The Mystery of the Eucharist

Christ gives us his Body in the Eucharist, he gives himself in his Body and thus makes us his Body, he unites us with his Risen Body. If man eats ordinary bread, in the digestive process this bread becomes part of his body, transformed into a substance of human life. But in Holy Communion the inverse process is brought about. Christ, the Lord, assimilates us into himself, introducing us into his glorious Body, and thus we all become his Body.

-Pope Benedict XVI

Ever wonder where "God Bless You" after a sneeze came from....

The most popular theory is that it originated in Rome when the bubonic plague was ravaging Europe. Sneezing was one the plague's main symptoms, and it is believed that Pope Gregory suggested that a tiny prayer in the form of saying, "God bless you" after a sneeze would protect the person from death.

Please pray for the sick of our communities..
